---

## PROFESSIONAL SUMMARY

B.Tech graduate aspiring to build a career as a **Cybersecurity / SOC Analyst** with a strong interest in **Security Operations, Network Security, Threat Detection, Vulnerability Assessment, and Incident Response**. Familiar with cybersecurity fundamentals including **TCP/IP, DNS, HTTP/HTTPS, firewalls, CIA Triad, CVE, CVSS, MITRE ATT&CK, Cyber Kill Chain, and Indicators of Compromise (IOC)**. Hands-on learning experience with security and networking tools including **Nmap, Wireshark, Burp Suite, Nikto, Nuclei, Hydra, Hashcat, Netcat, and Feroxbuster**. Familiar with **Linux/Kali Linux**. Strong willingness to learn and develop practical skills in a Security Operations Center environment.

---

## TECHNICAL SKILLS

**Cybersecurity:** SOC Operations, Threat Detection, Incident Response, Vulnerability Assessment, Security Monitoring, Threat Intelligence, OWASP Top 10

**Networking:** TCP/IP, DNS, HTTP/HTTPS, OSI Model, Firewalls, Network Security, Ports & Protocols

**Security Concepts:** CIA Triad, CVE, CVSS, CWE, CPE, MITRE ATT&CK, Cyber Kill Chain, IOC, Zero-Day Vulnerabilities

**Security Tools:** Nmap, Wireshark, Burp Suite, Nikto, Nuclei, Hydra, Hashcat, Netcat, Feroxbuster

**Operating Systems:** Linux, Kali Linux, Windows

**Other Skills:** MS Excel, Communication, Problem Solving

---

## EDUCATION

**B.Tech** | 2022 – 2025 | DR Paul Raj Engineering College | **CGPA: 7.25**

**Diploma** | 2016 – 2019 | Smt. B. Seetha Polytechnic, Bhimavaram | **CGPA: 6.61**

**SSC** | 2016 | ZPP High School | **CGPA: 8.00**

---

## INTERNSHIP

### AIML Virtual Internship – AICTE

- Gained exposure to the complete Machine Learning lifecycle.
- Worked through data gathering, data cleansing, feature engineering, model selection, model training, evaluation, and deployment.
- Developed an understanding of structured problem-solving and data analysis processes.

---

## PROJECT

### Advanced Railway Track Fault Detection Using Wireless Technology

- Developed an automated railway safety system for detecting track defects and monitoring train movements in real time.
- Utilized **GSM/Wi-Fi communication, Train Tracking Chips (TTC), and Train Identification Chips (TIC)** for train tracking and data transmission.
- Supported centralized monitoring and preventive action by enabling real-time communication of railway information.
- Aimed to reduce manual inspection errors and improve railway safety through automated monitoring.

---

## VOLUNTEER EXPERIENCE

- Participated in interschool events and handled assigned responsibilities effectively.
- Participated in community service projects and awareness activities related to plants in villages.
